

**Table of Contents**  
**Doctoral Series: Vol. 6**  
**E-Commerce and Source-Based Income Taxation**

**Introduction**

1. Definition of Electronic Commerce and Overview of How it Operates
- 1.2. Arguments, Approach and Organisation of the Thesis
- 1.3. Literature Review

**The Theoretical Foundations and Rationale for Source-Based Taxation**

- 2.1. Introduction
- 2.2. The Theoretical Basis for Source-Based Taxation and its Application to Electronic Commerce
  - 2.2.1. Benefit Theory
  - 2.2.2. Neutrality
  - 2.2.3. Equity
  - 2.2.4. Entitlement
  - 2.2.5. Pragmatic Considerations, the Prospect of Double Taxation and Impediments to International Trade
- 2.3. Conclusions

**The Definition of Source and Identification of Characteristics of Electronic Commerce Which Suggest a Need to Reconceptualise the Way Source is Defined**

- 3.1. Introduction
- 3.2. Definition of Source
- 3.3. Historical Basis for How Source is Defined
- 3.4. How Source is Defined in Current International Law
- 3.5. Characteristics of Electronic Commerce That Impact Upon the Way Source is Defined
  - 3.5.1. Reduced Need for Physical Presences and Intermediaries
  - 3.5.2. Digitisation and the Intangible Nature of Electronic Commerce
- 3.6. Conclusions

**The Need to Reconceptualise the Way Source is Defined for Active Business Profits under the Permanent Establishment Threshold**

- 4.1. Introduction
- 4.2. Definition of a Permanent Establishment under the OECD MC
  - 4.2.1. Physical Presence Permanent Establishment
  - 4.2.2. Agency Permanent Establishment
  - 4.2.3. Preparatory or Auxiliary Activities
  - 4.2.4. Summary
- 4.3. History, Rationale and Erosion of the Permanent Establishment

- Threshold
  - 4.3.1. History of the Permanent Establishment Threshold
  - 4.3.2. Rationale Underlying the Permanent Establishment Threshold
  - 4.3.4. Erosion of the Permanent Establishment Threshold
- 4.4. Analysis of the Way Source is Defined under the Permanent Establishment Threshold in an Electronic Commerce Context
  - 4.4.1. Customer Base
  - 4.4.2. Delivery of Goods
  - 4.4.3. Place of Contract
  - 4.4.4. Local Access Numbers
  - 4.4.5. Telecommunications Infrastructure
  - 4.4.6. Web Site, Server, Representative Presences
- 4.5. Conclusions

### **The Need to Reconceptualise the Way Source is Defined for Passive Income**

- 5.1. Introduction
- 5.2. Proposition One: Electronic Commerce May Facilitate a Greater Incidence of Income Recharacterisation
  - 5.2.1. The Process of Income Characterisation under Existing Rules
  - 5.2.2. Rationale for the Scheduler Structure of Tax Treaties
  - 5.2.3. Impact of Electronic Commerce on the Process of Characterisation
  - 5.2.4. Summary
- 5.3. Proposition Two: Most Electronic Commerce Transactions Involving Passive Income are Likely to Be Characterised as Business Profits Rather Than Royalties
  - 5.3.1. Computer Software
  - 5.3.2. Transfers of Other Digital Products
- 5.4. Conclusions

Table 1 – OECD Treaty Characterisation of Electronic Commerce Payments

### **Reconceptualising Source for Active and Passive Income – The Base Erosion Approach**

- 6.1. Introduction
- 6.2. Overview of the Base Erosion Approach
- 6.3. Essential Features of the Base Erosion Approach
- 6.4. Advantages of the Base Erosion Approach
  - 6.4.1. International Consensus
  - 6.4.2. Avoidance of Double Taxation
  - 6.4.3. Allocation of Revenues between Residence and Source Countries
  - 6.4.4. Tax Administration Considerations
- 6.5. Disadvantages of the Base Erosion Approach
  - 6.5.1. Efficiency/Measures to Relieve Double Taxation
  - 6.5.2. Neutrality/Equity

- 6.5.3. Tax Administration Considerations and International Agreement Regarding the Source of Income
- 6.5.4. Risk of Capital Flight and the Double Non-Taxation Problem
- 6.6. Conclusions

### **Reconceptualising Source for Active and Passive Income – The Virtual Permanent Establishment Approach**

- 7.1. Introduction
- 7.2. Permanent Establishment Fictions – Nothing New?
- 7.3. Implementation
  - 7.3.1. Lowering the Threshold for Tax Nexus
  - 7.3.2. Redefining the Scope of Excluded Ancillary Activities
- 7.4. Advantages of the Virtual Permanent Establishment Approach
  - 7.4.1. Neutrality
  - 7.4.2. Preservation of Fiscal Sovereignty and Sharing of the Tax Base
  - 7.4.3. Tax Administration Considerations
- 7.5. Disadvantages of the Virtual Permanent Establishment Approach
  - 7.5.1. International Consensus
  - 7.5.2. Definitional Problems
  - 7.5.3. Attribution of Profits
- 7.6. Conclusions

### **Reconceptualising Source for Active and Passive Income – The Refundable Withholding Approach**

- 8.1. Introduction
- 8.2. Overview of the Refundable Withholding Approach
- 8.3. Central Features and Advantages of the Refundable Withholding Approach
  - 8.3.1. Numerical Threshold for Determining Nexus
  - 8.3.2. Threshold that Applies on Gross Income and the Need for Grouping Rules
  - 8.3.3. Eliminating Distinctions between Income Categories
  - 8.3.4. The Withholding Mechanism
- 8.4. Possible Criticisms of the Proposal
  - 8.4.1. Neutrality
  - 8.4.2. The Withholding Mechanism
  - 8.4.3. Approach May Be Inconsistent with an Income Tax System
- 8.5. Conclusions

### **Summary, Conclusions, Implementation of the Research and Future Outlook**

- 9.1. Summary and Conclusions
- 9.2. Implementation of the Research and Future Outlook
