

Observatory on the Protection of Taxpayers' Rights

Below you will find a questionnaire filled in by Javier Martín Fernández and Jesús Rodríguez Márquez, Former Chair and Member at the *Spanish Tax Ombudsman Office*, Felipe Alonso Murillo and Manuel J. Lucas Durán, Former Attorney and Attorney at the *Spanish Supreme Court*, Yolanda Martínez and Elizabeth Gil, Doctors of Law at the *Universidad de Alicante*, all of them National Reporters of Spain.

This set of questionnaires comprise the National Reporters' assessment on the country practice during 2019 in the protection of taxpayers' rights (Questionnaire # 1), and the level of fulfilment of the minimum standards and best practices on the practical protection of taxpayers' rights identified by Prof. Dr. Philip Baker and Prof. Dr. Pasquale Pistone at the 2015 IFA Congress on "*The Practical Protection of Taxpayers' Fundamental Rights*" (Questionnaire # 2). These questionnaires were filled in considering the following parameters:

1. *For Questionnaire # 1*, an assertive assessment (yes/no) was required on the effective implementation in domestic law of 82 legal safeguards, guarantees and procedures relevant in 12 specific areas for the practical protection of taxpayers' rights, as identified by Baker & Pistone in 2015. This line of questioning aims to get an overview of the state of protection of taxpayers' rights in the country in 2019.
2. *For Questionnaire # 2*, an impartial, non-judgmental evaluation was required on the developments, either of improvement or of decline, in the level of realisation of 57 minimum standards and 44 best practices, distributed into 87 benchmarks for the practical protection of taxpayers' rights. In this regard, a summary of events occurred in 2019 (legislation enacted, administrative rulings, circulars, case law, tax administration practices), that serve as grounds for each particular assessment, was also required.

IBFD Observatory on the Protection of Taxpayers' Rights

Dear National Reporter,

On behalf of Prof. Dr. Philip Baker and Prof. Dr. Pasquale Pistone, I would like to thank you for your participation in the IBFD's Observatory on the Protection of Taxpayers' Rights (OPTR).

As you are aware, the OPTR aims to keep track of the developments in the practical protection of taxpayers' rights around the world. We intend to do so through the valuable and timely information you are kindly supplying, as member of your country's group of experts. Practitioners, tax authorities, academics and the judiciary of each surveyed country form national groups, to obtain a neutral, balanced report on the situation of taxpayers' rights in these countries.

Following you will find two questionnaires, of twelve sections each, aiming to compile relevant information regarding the level of practical implementation of the minimum standards and best practices of 12 taxpayers' rights, as identified by Prof. Dr. Baker and Prof. Dr. Pistone in Basel, 2015. We kindly ask you to fill them out completely, according to the instructions provided at the beginning of each questionnaire.

We would be very grateful if you submit us this questionnaire, duly filled out, by no later than 17 January 2020. We remain at your disposal for any clarification you may need.

We look forward to your valuable contribution to what we believe is an extraordinary project!

Kind regards,

Prof. Dr. Carlos E. Weffe

In December 2018, the project for the implementation of the so-called "Norma UNE 19602" (UNE standard) for the management system of tax compliance was submitted to public consultation. The UNE standard was published, and therefore entered into force, on 27 February 2019:

<https://www.en.une.org/encuentra-tu-norma/busca-tu-norma/norma/?c=N0061482> The UNE standard aims to assist in the design of tax compliance management systems for the prevention, identification and mitigation of tax risks. With this in mind, the UNE standard pretends to increase the compliance level with the normative as well as the implementation of good tax practices and tax transparency in the company.

On the other side, the Tax Administration Strategic Plan for 2019-2022 pretends to increase tax compliance. For that purpose, among other actions, the Strategic Plan envisages the elaboration of a Tax Administration Code of Conduct in line with international standards and corporate responsibility, including a complaint protocol in case of mala praxis. Moreover, an Ethics Advisory Committee will be created for providing assistance to public employees in the application of such code.

In addition, together with the Best Tax Practice Code (applicable since 2010) for large firms, the Tax Administration is already working in the elaboration of similar codes for self-employees and small and medium-sized enterprises (SME). Since July 2019, the Best Tax Practice Code for tax professionals apply to those professionals that voluntarily join the Code.

11 (B). Summary of relevant facts in 2019

Since 2016 tax period, all procedures related to the preparation, modification and filing of the personal income tax (IRPF) return are carried out with the "Processing service for drafts/tax returns (Renta WEB)". The introduction of new technologies led to an increase in the number of complaints and suggestions before the Taxpayers' Ombudsman in 2016 (i.e. when "Renta WEB" was introduced). However, taxpayers became quickly familiar with that system and this meant a significant reduction in the number of complaints regarding the "Renta WEB" system before the Taxpayers' Ombudsman in 2017.

With the aim to reinforce the assistance to taxpayers as well as to facilitate the submission of tax returns, the Tax Administration Strategic Plan for 2019-2022 envisages a similar electronic system for the VAT and corporate tax returns. Regarding VAT, there is a virtual assistant (AVIVA) that supports taxpayers to calculate the amount of output VAT. The content of AVIVA has recently been broadened to cover more issues that can be useful for taxpayers.

IV. Normal audits

28 (B). Summary of relevant facts in 2019 *

In application of ne bis in idem principle, taxpayers should only receive one audit per taxable period. However, the Spanish Tax System recognises the possibility that verification was carried out by two different bodies ("Gestión-Inspección") with the limitation established by art. 140 of the General Tax Act (Ley General Tributaria, LGT): it is necessary to discover new facts or circumstances from different administrative actions. It is interesting to note that the Supreme Court has admitted a cassation appeal (Auto 9 July of 2019) to determine if "once a limited verification has been carried out on a certain tax year, another verification may be initiated later with respect to the same tax and period, to request data or documents other than those required in the first procedure, without any new facts or data that were not available to the Administration in the first verification".

In this regard, the judgment of the Supreme Court of 31 May 2019 expands the scope of taxpayer protection by establishing the impossibility to verify, in the frame of an inspection procedure, what was verified in a previous procedure ("procedimiento de gestión") and initiated with a declaration and ended with a provisional assessment.

29 (A). In application of audi alteram partem, taxpayers should have the right to attend all relevant meetings with tax authorities (assisted by advisors), the right to provide factual information, and to present their views before decisions of the tax authorities become final.

These possibilities constitute a legal recognition of taxpayer rights. The annulled provision restricted the right of taxpayers by excluding any possibility of deferring a tax debt for having exercised a basic right, such as that of effective legal protection.

In this regard, the judgment of the Supreme Court of 27 March 2019 expands the scope of taxpayer protection by establishing that the requirement of the executive surcharge does not apply once the voluntary period has ended and the payment has been deferred as long as it is not resolved.

86 (B). Summary of relevant facts in 2019

According to the most recent annual report (2017) of the Taxpayers' Ombudsman, the number of complaints and suggestions (10,951) has considerably decreased in comparison with the prior years (18,562 in 2016; 14,000 in 2015; and, 15,931 in 2014). This reduction in the number of complaints is not only due to the familiarisation of taxpayers to new technologies (as above-mentioned) but also due to the effort made by the different bodies of the Tax Administration to properly interpret and apply the tax legislation.

87 (A). The organisational structure for the protection of taxpayers' rights should operate at local level as well as nationally. *
