IBFD Course Programme
Current Issues in International Taxation – The Chinese Outbound Perspective

Shenzhen, 15 – 16 October 2019
Summary

This is a 2-day advanced level course on international tax planning and structuring with a special focus on China. You can join this course if:

- your tax planning skills need a quick update on the latest global tax regulatory, legislative and case law developments in a short, practical and sometimes challenging manner;
- you just want to learn new tax planning-related skills at an advanced level to differentiate yourself in the market;
- you wish to obtain the latest know-how on international best practices concerning Chinese MNEs; or
- you simply want to be part of a reinvigorating professional experience.

Overview and Learning Objectives

The course will focus on how to utilize the remaining tax planning opportunities for Chinese outbound investments and spot potential safe harbours following the implementation of the OECD/G20 BEPS Project, the recently implemented and proposed EU direct tax initiatives and US tax reform including the following:

- PE tax planning in light of the latest international case law
- ensuring beneficial ownership status for passive income in Chinese outbound/inbound corporate structures
- successfully dealing with the impact of new EU/US anti-avoidance measures – how Chinese MNEs are affected
- managing substance to meet the requirements of anti-avoidance tools
- setting up structures to effectively plan indirect transfers of real estate
- recent case law and domestic law developments concerning anti-abuse measures from around the globe (from China, India, Korea and many more countries)
- update on the OECD’s work affecting Chinese MNEs
- what is new in South East Asia?

Field of Study

Taxes

Who Should Attend?

The course is suitable for Chinese and South East Asian tax practitioners in advisory firms, tax specialists in commerce and industry, and government officials with at least a few years of experience and cross-border responsibilities.

Course Level and Prerequisites

This is an advanced-level course. Participants will be expected to have a good understanding of the application of double tax treaties, transfer pricing issues and practical tax considerations that have an impact on international tax planning.
